GET YOUR PRODUCT LIFECYCLE RIGHT, OUT OF THE GATE

Getting started is seamless with the PLMgo business systems solution from PRG

Product Realization Group (PRG) has teamed with Arena, a PTC Business, to enable you to leverage your PLM System to scale your business:

To achieve market scale, does your business need to:

- Meet the product development schedule?
- Hit product cost targets?
- Communicate with key partners?
- Gain regulatory compliance?
- Manage engineering changes?

Our services are designed to complement Arena PLM, and deliver the process foundation for your business to get to volume production smoothly. We understand that creating best-in-class business processes requires significant effort, and can distract you from focusing on product commercialization.

- Complementary Product Lifecycle Management services help you get your product to market faster with less risk, meet cost targets, and set up a resilient global supply chain.

PRG provides the hands-on experts to help you plan, customize, implement, and manage these critical activities needed to scale your business.

As your development proceeds, **PLMgo** stages can be added in a cost-effectively until you have a complete product lifecycle management system for document control, design control, and supply chain management. PLM Administration and additional services supplement your in-house capabilities and available when you need them.

PLMgo Features

1. Best-in-class part numbering systems
2. Electronic change management and automated workflows
3. Integration between systems
 - Engineering, ERP, CRM, etc.
4. Flexible and Scalable – we tailor solutions to your evolving requirements for:
 - Meeting product development schedules
